OUTLAND IN FORUM TOMORROW ON NATIONAL HOOK-UP

Dr. George E. Outland will participate in the "Town Meeting of the Air" at the War Memorial Opera House at 4:30 tomorrow afternoon. The forum will be broadcasted over station KGO on a nation wide hook-up, under the auspices of the San Francisco Chronicle.

Question for discussion will be "Is the two-party system in America failing?" Dr. Outland and Bartley Crum, famed S.F. attorney, will take the affirmative, and James Roosevelt and Lt. Governor Goodwin Knight will declare that it is not.

Outland is former Democratic congressman from California's 11th district and joined the faculty of the college in February of this year. Prior to his congressional career of four years, Outland gained considerable fame as an educator and sociologist. At present he is teaching Criminology and Government at summer session.

Mr. Crum is known as a "progressive Republican" and recently returned from Palestine and other areas of the Near East where he served on a study commission appointed by Pres. Truman. His book "Behind the Silken Curtain" is one of the current best-sellers. His name has been mentioned as a possible mayoralty candidate.

EDITORIAL

The administration, the faculty, the student government and the heads of all activities in the college wish to thank everyone who has helped make this Summer Session a success. Special praise goes to the visiting faculty members and visiting students for their eager participation in the general activities with a spirt which lives up to the traditional friendliness of the college.

Praise also goes to the alumni for their action in making the people of this session "alumni conscious" and for the first time since the war actually setting up a bond between those "who have gone before" and those "who are still are going." It is hoped that by the almuni's action that student government and the executive board of the alumni may be able to work out a liaison by which each can serve to the other's advantage in the common effort of "building up State." These members of the alumni who have sponsored teas, outings, and participated in undergraduate activities this summer deserve all the praise they can get.

Also to be warmly congratulated are the members of the Education Workshop with special emphasis on the teachers in service who returned to brush up on new techniques and methods. The workshop undertook many difficult projects besides embarking on a very active social activities schedule. Workshop members arranged outings, skits, fashion shows, a boat ride and an air flight, and many other activities that could not have been accomplished without the drive and interest of everyone in the Workshop. Several school teachers who have been in service for a long period of time have stated that they have spent no happier summer since embarking on their careers. Dr. Francis Drag, his staff, Mrs. Alma Truesdale, social activities chairman, and the entire workshop are to be congratulated.

Members of the visiting faculty are also to be praised for their unstinted efforts in making their classes worthwhile and for which they have received compliments from their students and colleagues alike. Special notice should be given Mr. Wilder Bentley and Mr. William Hyde Irwin for their displays and special demonstrations which were not a necessary part of the curriculum but gave added knowledge and interest to students of the college. Miss Celia Strauss, recreation teacher, spent considerable extra effort not only in teaching her students to plan and execute activities but also in aiding considerably herself. Miss Annabelle Hanslem is to be complimented for her great effort in making the folk dance program a tremendous success. The interest of her students has become widely broadened through her extra efforts.

Let us not forget all the students, visiting and resident. They have shown themselves to be a part of the traditional "happy family" of State.

And last but not least, let us thank our own resident faculty for their excellent work during a period when their hearts should have been at the mountains or at the seashore.

The trend in newspapers today is definitely toward following their publisher's programs and praising their publisher--the boss. We, at this time, will follow that trend and thank our boss for his work in achieving excellent results for summer session. Mr. Hugh C. Baker has done that, and he and his entire staff are to be congratulated.

And of course, we all know that no activity would be complete nor any undertaking of the college a success, were it not for the efforts of Miss Mary A. Ward, dean of women.
